

## D 22

alkaline detergent

### Line

DETERGENTS

### Function

ALKALINE DETERGENT and DEGREASER. To clean all kind of greasy dirt: oils, grease, dregs, sludge, fats, environmental dirt, lamp-black, waxy layers etc.

### Materials

It can be used on all kind of materials except rubbers and synthetics

### How to use

For intense dirt and deep cleaning the product can be used pure as it is. For normal use dilute at 10-20% in water (1-2 liters of product in 10 liters of water) and then apply on the surface with a mop or cotton cloth. Let the product/solution work 10-15 minutes long avoiding the surface dries completely and then scrub by an hard brush or cloth or non-abrasive disc. If needed repeat the operation. Rinse abundantly with clear water. Two or more rinsings can be necessary if, after, the surface must be treated with a protecting agent or an impregnator

### Packaging

L.1

### Characteristics

Contains anionic and non-ionic surfactants biodegradable >90%, sequestering agents, glycolethers and polar solvents

### Important

A PRELIMINARY TEST IN A SMALL, HIDDEN, AREA IS RECOMMENDED BEFORE THE APPLICATION.

USE ONLY ORIGINAL CONTAINERS; NEVER POUR THE PRODUCT INTO OTHER METAL OR GLASS CONTAINERS. The product CANNOT STAND THE FROST. Low foaming alkaline detergent. The use of impermeable gloves is suggested.
