

## **POLIESTERE FLUIDO**

dual component adhesive of highest quality

### **Line**

POLYESTER

---

### **Function**

DUAL-COMPONENT ADHESIVE FOR AFFIXING MARBLE, NATURAL AND ARTIFICIAL STONE

---

### **Materials**

MARBLE, NATURAL AND ARTIFICIAL STONE

---

### **How to use**

For best results mix 2% to 3% of the catalyst with the adhesive. The paste formula makes easy to measure. A homogeneous mixing will facilitate uniform catalysis. The catalysis speed is influenced by the temperature and by the proportion/quantity of catalyst. An excess of hardener/catalyst will increase the hardening speed, but weakens the adhesive seal.

---

### **Packaging**

750ml □  
L.4-19

---

### **Characteristics**

FOR MORE INFORMATIONS ASKING TECHNICAL DATA SHEET

---

### **Important**

PRELIMINARY TEST IN A SMALL, HIDDEN, AREA IS RECOMMENDED BEFORE THE APPLICATION. □
