TECHNICAL DATA SHEET PRODUCT

CAR FLASH

**POLISHER and CLEANER
for CAR
ANTI-STATIC**

Multifunction product specific for polishing and cleaning the car (*body car, chromed parts, plastic parts*) for both external and internal parts.

The combination of surfactants, a special micro-emulsion of natural waxes and anti-static agents, gives to the product:

- *Very good polishing action*
- *High cleaning power*
- *Protecting and anti-static effect*

CAR FLASH is ready-to-use and no rinsing is needed. After applying, a special protecting layer is formed that enhances the gloss of metal and chromed parts. Its anti-static action protects the surface limiting the accumulation of dust and dirt.

LINE

HOME LINE

INDICATION

POLISHING AND CLEANING OF METAL PARTS, CHROMED PARTS AND PLASTIC PARTS OF THE CAR

HOW TO USE

- 1) Remove dirt and incrustation from the surface.
- 2) Spray the product directly onto the surface to be polished/cleaned and onto a clean microfiber cloth and rub the surfaces with circular motion
- 3) With other dry microfiber cloth rub again the surface for removing eventual residues and favour the polishing. Fold the microfiber cloth when becomes dirt.

The periodic repetition of the above operations ensures the car always clean and shiny that makes it look like new

COMPOSITION

AQUEOUS EMULSION OF WAXES, SURFACTANTS AND ANSTI-STATIC AGENTS

TECHNICAL DATA

Tests carried out in our laboratories show:

1. Increase of the water flow: >50% (if compared with a body car not treated).
The drops of water do not stagnate neither dry nor leave marks on the surface, but they slip away (if there is a slope >5%)
2. Immediate increase of the shine of the body car (metered with glossmeter): till to +60%
3. Protecting effect and preservation of the gloss in the time: till to +80% (if compared with a body car not treated)

STABILITY

The product **CANNOT STAND THE FROST**

Avoid storage at temperature lower than +5°C (41°F) or higher than +35°C 95°F).

IMPORTANT

The product is not dangerous but it is anyway is chemical preparation and you have to protect your eyes and **KEEP OUT FROM THE REACH OF CHILDREN**

PACKAGING

750 ml. (with sprayer), 1 L.

LIMITATION OF LIABILITY

The information provided has been taken from bibliography or our laboratory experience and must be considered as approximate and not be taken as a formal guarantee. In particular, any liability for faulty products, once the fault has been ascertained, shall nevertheless be restricted to the purchase price of the product only. No liability can be accepted for implicit or explicit damage caused by product use, which remains beyond our direct control

BEFORE APPLYING, ALWAYS EFFECT A PRELIMINARY TEST
